

Figure 1

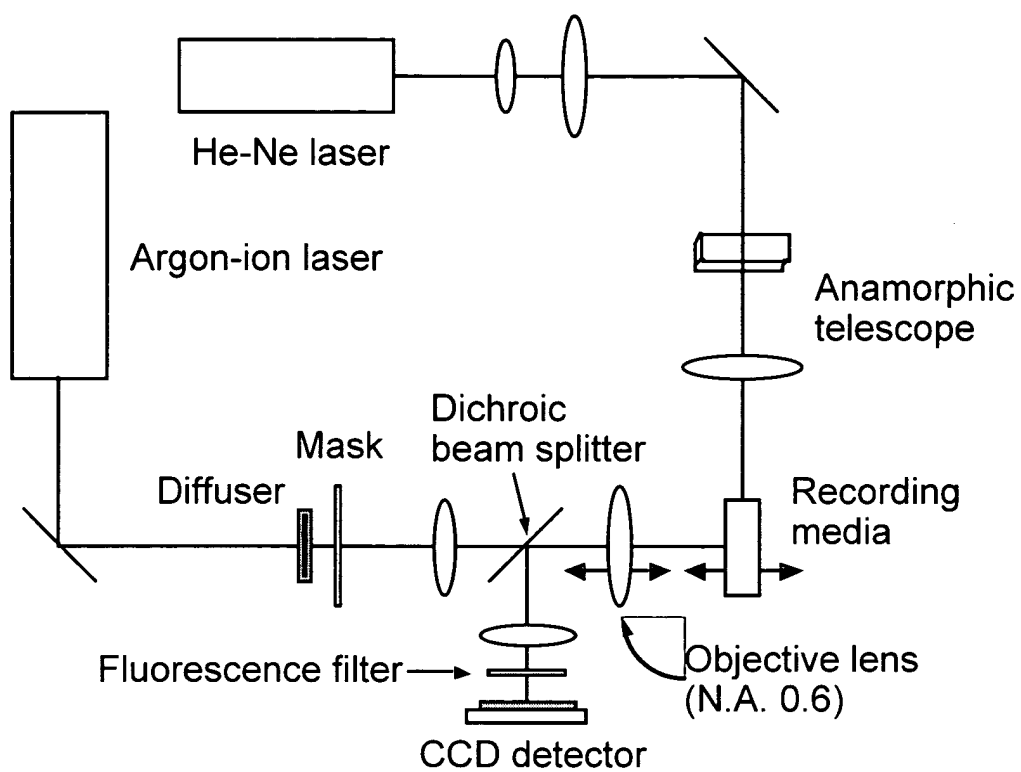

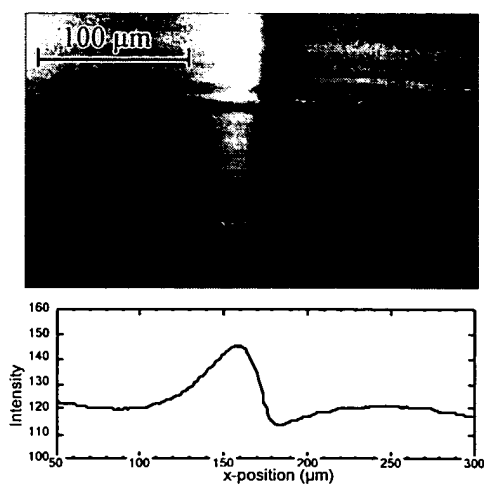

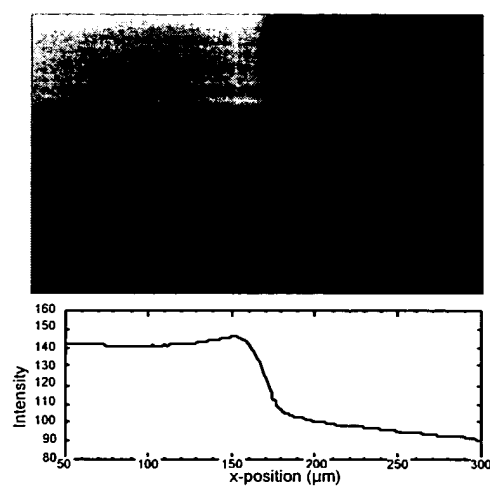

Figure 2

The image shows a dark, high-contrast view of what appears to be a control panel or instrument cluster. The upper portion is predominantly black with some faint, illegible markings. The lower portion features a horizontal row of controls. On the left, there are several small, circular indicators or buttons. To their right is a larger, bright, rectangular display or light source. The overall appearance is that of a vintage or industrial control interface.
